

Advice to patients undergoing follow-up PSA (prostate-specific antigen) measurement by their GP : frequently-asked questions

What is the PSA blood test?

Prostate-specific antigen (PSA) is a substance produced in the prostate gland. All men have some in their blood. If the amount in the blood is abnormally high, it might indicate that you have a disease in the prostate, which could be cancer or other conditions such as inflammation. PSA is not specific for cancer. In patients already diagnosed and treated for prostate cancer and in patients following normal tests to exclude prostate cancer, it is very valuable to monitor the changes of the PSA value over time.

Why do I need regular PSA tests?

You have either been diagnosed and treated for prostate cancer or have had normal tests to exclude prostate cancer. One's PSA level gives information about the state of the prostate which can be useful in assessing prostate health. The PSA reflects the normal turnover, inflammation or cancerous changes. Having already made several PSA measurements we will be able to use changes in your PSA as an indicator of your prostate health.

What does follow-up PSA measurement involve?

PSA is measured by taking a simple blood test. You will then be seen by a doctor or a nurse who will make a general assessment of your health. This might include an examination. With the results of PSA test and assessment the doctor or nurse will be able to advise you on your prostate health.

How will my results be returned to the Urology Department?

Your GP will submit the results to the Urology Department on a regular basis. Your GP will also have direct access to a prostate specialist to ask urgent

questions. Where appropriate, your GP will refer you back to the Urology department with the results of the assessment and the PSA test.

Who can I contact for more help or information?

Oncology Nurses

- Uro-Oncology Nurse Specialist
01223 586748
- Bladder cancer Nurse Practitioner (haematuria, chemotherapy & BCG)
01223 274608
- Prostate cancer Nurse Practitioner
01223 274608

Non-Oncology Nurses

- Urology Nurse Practitioner (incontinence, urodynamics, catheter patients)
01223 274608 or 586748

Patient Advice & Liaison Centre (PALS)

- Telephone
+44 (0)1223 216756 or 257257
+44 (0)1223 274432 or 274431
- PatientLine
*801 (*from patient bedside telephones only*)
- E mail
pals@addenbrookes.nhs.uk
- Mail
PALS, Box No 53
Addenbrooke's Hospital
Hills Road, Cambridge, CB2 2QQ

Chaplaincy and Multi-Faith Community

- Telephone
+44 (0)1223 217769
- E mail
derek.fraser@addenbrookes.nhs.uk
- Mail
The Chaplaincy, Box No 105
Addenbrooke's Hospital
Hills Road, Cambridge, CB2 2QQ

MINICOM System ("type" system for the hard of hearing)

- Telephone
+44 (0)1223 274604

Access Office (travel, parking & security information)

- Telephone
+44 (0)1223 586969

Other information

Please see your GP if you experience any new or worsening symptoms or side-effects from medication.

This patient information leaflet provides input from specialists, the British Association of Urological Surgeons, the Department of Health and evidence-based sources as a supplement to any advice you may already have been given by your GP. Alternative treatments can be discussed in more detail with your urologist or Specialist Nurse.

How can I get information in alternative formats?

Please ask if you require this information in other languages, large print or audio format: 01223 216032 or patient.information@addenbrookes.nhs.uk

Polish Informacje te można otrzymać w innych językach, w wersji dużym drukiem lub audio. Zamówienia prosimy składać pod numerem: 01223 216032 lub wysyłając e-mail: patient.information@addenbrookes.nhs.uk

Portuguese Se precisar desta informação num outro idioma, em impressão de letras grandes ou formato áudio por favor telefone para o 01223 216032 ou envie uma mensagem para: patient.information@addenbrookes.nhs.uk

Russian Если вам требуется эта информация на другом языке, крупным шрифтом или в аудиоформате, пожалуйста, обращайтесь по телефону 01223 216032 или на вебсайт patient.information@addenbrookes.nhs.uk
